

{ *Objet de nécessité n°9* }

*Elements could have only been a vase or a simple tracery of shapes and precious materials. But it's a ceremonial in first place, as well as a soft music, the one played by the brass top when in contact with the glass part. It also is a true meeting between the materials with this powerful marble base in which the glass part fits and nests. An eminently ornamental piece that assumes its part of mystery.*

- . Vase in black smoked glass, black Marquina marble and solid brass (H. 47,5 cm)
- . Manufactured in Europe
